

HATCO® CORPORATION PRODUCT RELEASE

For Consistent Uniform Toasting, Choose Toast-Qwik® Conveyor Toasters

Hatco® Corporation's industry-leading, redesigned TQ3-2000 Toast-Qwik® Conveyor Toaster has a modernized, patent-pending design and guarantees the best flexibility and performance available to provide consistent uniform toasting. The TQ3-2000, which delivers up to 2000 slices per hour, has a touchscreen control panel, which allows implementation of up to 12 programmable product settings. A USB port is located on the front for easy software updates. The TQ3-2000 uses the patented ColorGuard Sensing System to monitor and adjust conveyor speed for consistent toast results, even during peak periods. A Power Save mode activates automatically after a certain period of time, or by pressing the power save button on the touchpad, to conserve energy. A 2" (51 mm) opening is standard; the TQ3-2000H has a 3" (76 mm) opening for thicker bread products.
